

PELTOR™
Protection & Communication

Hearing protection has never
sounded better.

We deliver hearing conservation solutions.

By applying the science of safety, 3M has created a comprehensive suite of solutions to help solve your most pressing hearing conservation challenges.

Essential Hearing Protection Solutions

Provide your workers effective hearing protection with quick and easy-to-use 3M Earmuffs, Disposable Foam Earplugs, Push-to-Fit Earplugs and Reusable Earplugs.

Hearing Protection & Communication Solutions

Give your employees the ability to hear and communicate critical information in noisy environments while still protecting their hearing.

3M™ E-A-Rfit™ Dual-Ear Validation System

The 3M E-A-Rfit Dual-Ear Validation System makes it easy to measure every employee's unique level of attenuation through hearing protection fit testing. It helps take the guesswork out of managing compliance in your hearing conservation program. Most of the popular 3M hearing protectors are E-A-Rfit compatible with more being added continually. Visit go.3M.com/earfit-global-crossover-guide for the current list of compatible products.

3M™ Hearing Conservation Program Manager

Streamline your hearing conservation program with the 3M Hearing Conservation Program Manager. It lets you keep your critical data and records in one, easy-to-access place and sends alerts and notifications to help keep you in compliance.

Whether you need protection from continuous or intermittent noise, or need to protect your hearing and communicate, 3M has a solution for you.

The science of hearing.

Protecting your hearing means more than just shutting out the noise. At times, it’s just as critical to hear your surroundings and effectively communicate with your co-workers.

The 3M™ PELTOR™ brand is known around the globe as a leader in innovative hearing protection and communication solutions. From manufacturing to transportation to elite tactical military teams and local law enforcement, industries rely on PELTOR innovations like environmental listening technology—that automatically adjusts the level of hearing protection based on noise levels, allowing team members to communicate without the temptation to remove their hearing protectors. They also depend on the technology that goes into our integrated two-way radio headsets, allowing for clear communication in noisy environments—including wireless capability powered by Bluetooth® technology.

*Sound output limited to 82 dBA.

Let's talk about hearing.

Hearing protection for when it's noisy; helps you to hear when it's not.

Millions and millions of workers need hearing protection every day, but don't all necessarily need the same level of protection from one moment to the next. Many are exposed to intermittent noise where it can be very loud for a period of time, but then it's relatively quiet. Some workers frequently transition between loud and quiet environments, and others may experience relative quiet most of the time, but can then be exposed to extreme, unpredictable impulse noises. In each of these cases, workers need hearing protection for when it's noisy, but could benefit from being able to hear when it's quiet.

It's why workers around the world count on the environmental listening technology built into the 3M™ PELTOR™ Protective Hearing Solutions.

Hearing Protection and Situational Awareness

3M™ PELTOR™ Electronic Earplugs allow sounds less than 82 dBA to pass through, yet help provide protection when noise levels increase. They increase your ability to communicate with nearby workers, as well as hear warning signals, approaching vehicles, or sounds from machines and processes. These small and lightweight earpieces are rechargeable and conveniently store away when not in use.

3M™ PELTOR™ EEP-100 Electronic Earplug

Clear Lid
Enables easy visibility of charging status when closed.

Micro Type-B USB Charging Port
USB port enables the charging of the earplugs when plugged into a computer or wall socket (USB cable included).

Microphone Port
Helps minimize wind noise. Additional windscreen accessory also available.

- **Hearing Protection**
Replaceable communication eartips help provide hearing protection in noisy environments. Multiple sizes and types designed to fit most ear canals.
- **Water and dust resistant (IP54)**
- **Volume limited to 82 dBA**

Rechargeable
Charging contacts recharge the unit while in the case. Lithium-ion battery provides up to 16 hours of continuous operation.

Button
Intuitive one-button operation turns unit on, off, and lets you select from 3 volume settings.

Sealing Ring
Rubber sealing ring helps protect earplugs in wet and dirty environments.

Charging Case
Pocket-sized storage and charging container. Including charging status indicator.

3M™ PELTOR™ LEP-200 Level-Dependent Earplug

3M™ PELTOR™ TEP-200 Tactical Earplug

Both earplugs also feature:

Wireless Capability
Includes a small antenna to allow audio signals to be received wirelessly from a neckloop accessory (available separately).

Enhanced Amplification
Provides additional volume for hearing your surroundings in low noise.

Charging Case
Charge via USB port or with 3 AA batteries for on-the-go charging and storage.

Stay aware and stay protected.

You know wearing hearing protection in noisy environments is important for worker safety, but sometimes the ability to hear alarms and vehicles and effectively communicate with other workers can be equally important. These 3M™ PELTOR™ Headsets utilize environmental listening technology to help reduce potentially harmful noise when needed and enable normal listening when sound levels are below 82 dBA. Plus, they combine professional-grade durability with lightweight comfort for all-day wearability.

- Environmental microphones for ambient listening.
- Lightweight design.

Keep headset in proper working order with replacement cushions and foam liners (hygiene kit available separately).

Rugged, dual-shell design helps protect electronics from moisture.

Noise attenuating ear cups help provide hearing protection in environments with potentially hazardous noise.

- Headset is available in both headband and hard hat attached configurations.

User-friendly buttons minimize accidental adjustments that are common with dials.

Stainless steel wire headband offers comfortable and consistent pressure.

- Connect smart phone, radio, shoulder mic or other external device (listen-only) with 3.5 mm stereo input. (Not included)
- Two AA batteries provide approximately 100 hours of continued use. Headset powers off after 4 hours of non-use to conserve batteries. Audio alert when battery is low.

3M™ PELTOR™ | ProTac III Headset

The ProTac III Headset utilizes sound limiting environmental microphones to monitor the surrounding environment, and when hazardous noises are present, the electronic circuit in the headset limits the speaker volume to 82 dBA.

3M™ PELTOR™ | Tactical Pro Headset

For even more comfort, durability and sound quality, the 3M™ PELTOR™ TacticalPro Headset is the premium protective hearing earmuff for clear, life-like sound reproduction and its design is ruggedized for use in demanding environments.

Let's talk about communication.

3M™ PELTOR™
Protective
Communication
Solutions help protect
your hearing while
also enabling you to
clearly communicate
in noise.

The old way? Loud lapel mics, shouting into each other's ears, and missing the communication altogether. The new way? 3M™ PELTOR™ Protective Communication Solutions that help reduce the noise and still let you communicate with co-workers, promoting increased productivity, reduced mistakes and improved coordination. Now, that sounds smart.

3M™ PELTOR™
LiteCom Headsets

3M™ PELTOR™
Bluetooth® Headsets

3M™ PELTOR™
CH-3 Headsets

Rise above the noise with clear protective communication.

With the voice-activated, noise-cancelling communication microphone and extended operating times of 3M™ PELTOR™ LiteCom Headsets, you're already ahead of the game when it comes to team communications.

The LiteCom lineup includes models with different features so you can find just the right headsets for your specific needs. By enabling your work team to clearly communicate in noise, workers may be compelled to wear their hearing protection consistently and continually.

Outstanding protection. Advanced technology.

3M™ PELTOR™ | WS™ LiteCom Pro III Headset

Headset is available in headband, neckband and hard hat attached configurations.

Find the right fit for your application.

1

3M™ PELTOR™ WS™ LiteCom Pro III Headset

Fully programmable to seamlessly integrate into your existing analog or DMR two-way radio system (403-470 MHz)*.

2

3M™ PELTOR™ WS™ LiteCom Plus Headset

Step into the LiteCom Plus for environmental listening technology that automatically adjusts to your surroundings.

3

3M™ PELTOR™ LiteCom FRS Headset

Take small group communication to the next level with the reliable LiteCom FRS. It turns noisy plant tours into clear conversation spaces.

3M™ PELTOR™ WS™ LiteCom Pro III IS Headset - Intrinsically safe

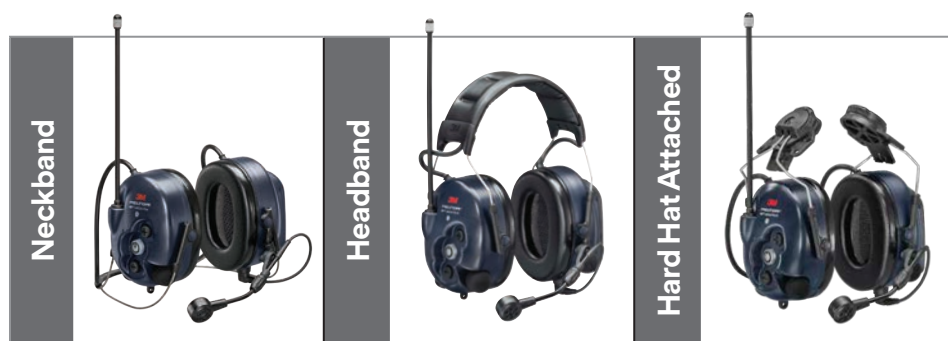

Get all the features of the LiteCom Pro III with a headset certified by CSA Group as intrinsically safe for use in potentially explosive environments.

Stay connected. Stay working. Stay engaged.

Connect to a device using Bluetooth® technology and turn your hearing protection into a communications center. With the noise-cancelling speech microphone, converse at normal volumes even in noisy environments.

3M™ PELTOR™ WS™ ProTac XPI Headset

Integrates hearing protection, Bluetooth® communication, and a noise-cancelling speech microphone to deliver a wireless, hands-free protective communication solution.

Environmental listening technology assists workers to hear environmental sounds in low noise and helps provide protection when it's loud.

FLX2 auxiliary port allows for a wired connection to a wide variety of 2-way radios. (*-111 models only).

Bluetooth®

- Helps provide hearing protection when exposed to hazardous noise
- Water and dust-proof noise-cancelling microphone (IP68) for clear speech transmission in noisy and harsh environments
- Bluetooth® multipoint technology for simultaneous, wireless connection to two devices
- Built tough for the working professional
- Comfortable for all-day wearability

Bright yellow color for enhanced visibility

3M™ PELTOR™ WS™ Alert™ XP Headset

Experience premier acoustics throughout your noisy workday, whether you're talking on your smart device, streaming music, or listening to the integrated FM radio. Also includes environmental listening technology.

 **WARNING!**

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For correct use, consult supervisor and *User Instructions*, or call 3M PSD Technical Service in the USA at 1-800-665-2942.

 **WARNING!**

U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M makes no warranties as to the suitability of the NRR for this purpose. 3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill, and motivation of the user. Refer to applicable regulations for guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical protection.
