

VIDEO-AS-A-SERVICE

TRANSPARENCY SHOULDN'T COME AT A HIGH PRICE

Get your cameras and get going. Our simple pay-as-you-go program helps you get everything you need for your body-worn and in-car camera video policing program with no upfront capital investment — from a robust camera system to advanced digital evidence management tools.

As the requirement for law enforcement video systems continues to grow, the obstacles to acquisition remain the same.

Raising funding and securing grants is difficult and time-consuming. Data storage and system maintenance costs are hard to predict. And video technology continues to mature, making a big investment potentially risky.

Motorola Solutions is overcoming these obstacles by delivering body-worn cameras, in-car video systems, digital evidence solutions and support services through Video-as-a-Service.

With no up-front capital investment required, you can deploy a new camera system and start using it immediately under a simple 5-year pay-as-you-go program. Everything you need is provided, including solutions to securely capture, collect, manage and share your evidence, as well as 24/7 support and no-fault warranty coverage.

And if you already have content on a digital evidence management system, we can work with you to migrate your video material to the new platform.
